“REQUEST FOR PROPOSAL”
FOR
“Awareness Generation, Capacity Building and Community Mobilization in
19 villages of Chhipaner Grouped Piped Water Supply Scheme in
Nasrullaganj Block of Sehore District.

RFP Reference No. :22

Date: 22.09.2018

As per Govt. of India strategic plan 2022, at least 90% of rural households are to be provided with piped water supply; at least 80% of rural households shall have piped water supply with individual house hold connection without social and financial discrimination. In Madhya Pradesh, as per census 2011, only 9.90% rural population is being served through piped water against the National average of 30.80%.

To enhance the piped water supply coverage and accomplish the ambitious target fixed as per Govt. of India’s strategic plan, Govt. of Madhya Pradesh through Public Health Engineering Department (PHED) is in the process of implementing various Multi Village Rural Water Supply Schemes (MVRWSS) for which it needs to generate awareness among rural communities, development of Community Based Organizations (CBOs) and build their capacity on management and operation & maintenance of intra village distribution network of MVRWSS.

The financial bids are invited from agencies empanelled in Water Support Organization of PHED as on 22.09.2018 as Agency/Trust/Firms/NGOs to conduct awareness generation, community mobilization and capacity building activities among rural households of villages of Chhipaner Grouped Piped Water Supply Scheme.

“TERMS OF REFERENCE”

**Selection of agency for organizing Awareness Generation, Capacity Building and
Community Mobilization activities in 19 villages of Chhipaner Grouped Piped
Water Supply Scheme in Block Nasrullaganj of District-Sehore**

The National Rural Drinking Water Supply Program, Govt. of India has laid a framework for providing safe drinking water sustainably to all. The National Policy Framework has set goals to provide every rural person with adequate safe water for drinking, cooking and other basic domestic needs on a sustainable basis. At the same time the basic requirement should meet minimum water quality standards and be conveniently accessible at all times and in all situations.

In this light PHED is implementing Chhipaner Grouped Piped Water Supply Scheme in about 19 villages of Nasrullaganj Block of Sehore district to ensure the availability of water for drinking and other domestic purposes throughout the year. But, the experiences of the past in terms of sustainability of such schemes are mixed. Many single village water supply schemes are non- functional and underline the importance of involving the community in planning and implementation of rural water systems and their management to ensure the sustainable supply of drinking water.

Therefore, PHED has kept community participation at the forefront and aims to empower local communities, particularly village level institutions such as the Gram Panchayats and Village Water Sub Committees (VWSCs), to manage intra village distribution networks on their own. It also wants to partner with experienced and credible agencies, with significant experience in the area of community mobilization including agencies that have experience of working with women and facilitation of community-led institutions to mobilize communities to come forward to manage village supply schemes, and to develop the capacities of communities and their institutions in the planning, implementation, operation and maintenance of these MVRWSS.

As per the Go MP notification no. 28 dated 20th January 2015, the intra-village distribution network of the schemes will be managed through VWSCs. The existing committees such as the SHG's, Pani Samiti etc. if found suitable could be transformed into the VWSC. Details of the structure of VWSCs, formation norm, role & responsibilities etc. described in Go MP Gazette notification No.28 dated 20 Jan. 2014 “Madhya Pradesh Nal Jal Praday Yojana Sanchalan Evam Sandharan Niyam 2014” published through Panchayat & Rural Development Department.

2. Partnership objectives:

- Create awareness among rural communities in the target villages about the importance of safe and piped drinking water.
- Forming & strengthening Village Water Sub Committee as per Go MP Gazette Notification “Madhya Pradesh Nal Jal Praday Yojana Sanchalan Evam Sandharan Niyam 2014” with adequate representation of women and people belonging to marginalized communities and their capacity building for effective management of the MVRWSS intra village water distribution systems.
- Provide institutional facilitation support for the community management of drinking water supply system.
- Mobilise community to create adequate stake and ownership in the scheme through operation and maintenance.
- Mobilize community to take new connection from MVRWSS.
- Motivate household to deposit water connection charges and security deposit.
- Motivate rural household to pay water tariff regularly.
- Increase overall awareness among community on water & sanitation and hygiene issues.

3. Approach

Establishing decentralized community-managed water supply systems would be central to the implementation and the focal point of this project will be the local people’s institutions i.e. Village Water Sub Committee. Community management of water supply systems and assured supply in the villages, based on the robust gender analysis to respond to the needs of the marginalized communities and women, is central to this programme. Principles of gender mainstreaming will be followed that will include participation of marginalized communities and women at all levels -planning, operation, maintenance and efficient-equitable distribution. This will also include generating resources for the O&M of the system (i.e. water charges from users).

4. Role of agency

The role of the agency will be a combination of change agent, inter mediator, source of knowledge-capacities and process manager.

4.1 Change Agent:

The agency will have to understand the existing local perceptions of drinking water, its access, safety and security as the starting point for a consultative process for change and improvements within villages. The agency will have to mobilise and create interest within the village as a community in the establishment of a community-managed water supply scheme integrated with the access, safety and security of drinking water and accompanying institutional arrangements. In doing so, the agency will specifically target marginalized

communities and women to understand their concerns with regard to the drinking water. The agency can collaborate with women's organizations working in the villages to reach out to large number of women. The agency can use the platform of *MahilaSabhas* to bring together women to discuss the issues pertaining to water. The agency will create awareness about the proposed resources of drinking water.

4.2 Intermediator:

As our intermediary, the agency will support in developing capacities of VWSCs and establishing its linkages with the Gram Panchayat, making it autonomous with its rules and regulation for the effective operation and maintenance of the drinking water supply system. The VWSCs should also have the capacity to understand, present and coordinate with the Gram Panchayat for the activities necessary to ensure water safety and security. It will also work as the initial interface between the village institutions and other entities like the Block/Zila Panchayat, PHED, Panchayat and Rural Development, Health, Education, Woman & Child Development Departments as well as Public Health Engineering Department. The VWSCs will have adequate membership of women and people belonging to marginalized population groups so as to ensure their participation in decision-making processes.

4.3 Source of Knowledge and Capacities:

The agency will function as a primary source of knowledge for VWSCs and build their capacities in all the relevant areas, such as technical aspects with regards to water safety and security, financial management and accounting, legal responsibilities, and assist them contracting external expertise where and when necessary. The agency should ensure that knowledge and capacity development efforts are designed keeping in view the requirements of women and marginalised communities members of VWSCs. The agency will also develop awareness amongst women and men on the various alternatives/ options available, for example management, operation maintenances of intra village distribution network, elevated service reservoir (ESR), etc. The agency will enhance the capacities of local communities including that of women to contribute in management, operation and maintenance of water supply systems.

The agency will work with a purpose of gradually transferring capacities/skills to the VWSCs, so that they can begin functioning as independent, self-reliant local institutions, once the handholding support is withdrawn.

5. Activities of agency

Agency will specifically focus on the following activities:

5.1 Enabling Environment:

At the village level, the agency shall conduct a gender sensitive baseline survey in terms of availability of water at household level. The agency will also conduct a water budgeting exercise with the community to draw attention on the sustainability and conservation issues, availability of water as limited resource, distinguish and support the community in taking

informed decisions in terms of the different uses of water. Through a series of IEC campaigns-targeting different set of stakeholders- create awareness in the village communities, especially among women, mobilize them to be part of the scheme, identify opinion-makers/ community leaders/women leaders/elected women representatives/youth to work as change agents/local animators.

5.2 Institution building:

- Form, streamline and strengthen the Village Water Sub Committee as per Go MP Gazette notification, identifying the most suitable persons in terms of their willingness, knowledge and their acceptability within the community. Ensure that women and people belonging to marginalized communities are represented in the VWSCs. Assisting in arrangements for financial contribution as new connection charge and security deposit from the community, facilitate Janpad panchayat for issuing orders and support in opening of bank account to deposit the community's financial contribution for O&M.
- Capacity building of Village Water Sub Committee will include identifying training needs, providing training to build their capacity. Ensure specific efforts to enable women to take leadership roles and to enhance their technical skills. Provide inputs to community for O&M of facilities, in ways that optimize access to all; strengthen Village Water Sub Committee to take over the management of Water Supply system and have the capacity to address the administrative and procedural matters.
- Provide guidance to Village Water Sub Committee on handling finance, people's financial contributions and establishing systems for the sustainable management of these schemes.

5.3 Sanitation and Hygiene promotion

Unless people are aware about sanitation and hygiene, it is unlikely that the community would value the importance of safe storage and handling of water, even if now supplied with their premises. Sanitation and Hygiene promotion activities in the village will aim to improve the following hygiene practices:

1. Safe storage and handling of drinking water.
2. Safe disposal of liquid waste through appropriate waste water drainage from the households.
3. Safe disposal of solid waste such as animal waste, but also child's excreta.
4. Practice of Hand washing with soap (especially after defecation and before eating or touching food).
5. Use of toilets and eliminating the practice of open defecation.

The agency would be required to create awareness about the linkages between sanitation and health and how the improved sanitation and hygiene practices could contribute in improved health and enhanced productivity. The formation of Village Water Sub Committee would play an important role in the dissemination of sanitation and hygiene practices in the village. The

enrolment of dedicated people and “natural leaders” in the Village Water Sub Committee would support the fast propagation of the sanitation and hygiene messages. The agency would also develop synergies and convergence with other related flagships such as the Swachh Bharat Mission, the Mahatma Gandhi National Rural Employment Guarantee scheme.

5.4 Community Contribution

Agency will facilitate necessary community contribution against the new connection charges and security deposit to be incurred on further O&M of the intra village distribution work MVRWS. The contribution against new connection charges and security deposit will be deposited to saving bank accounts of VWSC preferably as fixed deposit. The agency will also facilitate the VWSC to deposit the monthly bulk water cost to PHED’s accounts. The agency will ensure that the VWSC institution built in the village take lead in community contribution and the agency will act only as a facilitator.

6. Reporting, Monitoring and Coordination

- The agency will adopt a proper reporting and monitoring system, in consultation with PHED.
- The agency will report on monthly basis to PHED about physical, financial and IEC progress through progress reports, as per predesigned formats and suggested outlines.
- Monitoring will be organized at various levels. Indicators developed by the project for the purpose, will be periodically made use of. Efforts will be made to have gender sensitive indicators.
- Monitoring will include those done by the agency with the community members, by the agency management done for their respective field staff, for the progress of work in the villages. The field staff of agency (especially the village coordinators /social mobilisers) should also include women.

7. Management

- Agency will evolve and maintain regular monitoring mechanisms with consultation of PHED.
- Devise work plan and time schedules periodically; report achievements accordingly.
- Participate regularly in meetings and coordinate effectively with various govt. bodies
- Prepare reports, case studies, impact assessment and provide it to PHED
- Adopt a flexible approach to allow modifications and changes as the project evolves.

8. Support from PHED

- An orientation programme will be organized by PHED for the agency staff. In order to ensure that Agency understands that importance of IEC, HRD and gender issues – a day long sensitisation programme on water issues shall be organised for the agency staff.
- PHED shall also organize review meetings to understand the progress and bottlenecks in implementation of the project and the solutions accordingly.
- PHED will also maintain an oversight on the projects through periodic field visits and review of the progress reports.

9. Agency selection criteria

- i. The eligible agency quoting lowest rate shall be selected for the award of the work.
- ii. If more than one agency has offered same lowest rates, then these agency will be asked to given their bid (lower than the previous bid) in sealed envelope on such a date as decided by the authority and the work shall be awarded to the lowest bidder. But if in second trial, the rates are found same; than the process will be continued until a clear-cut lowest bid is received.

PHED shall be entitled to all intellectual property and other proprietary rights including but not limited to patents, copyrights and trademarks, with regard to documents and other materials which bear a direct relation to or are prepared or collected in consequence or in the course of the execution of this assignment. At PHED request, the bidding agency shall take all necessary steps, execute all necessary documents and generally assist in securing such proprietary rights and transferring them to the PHED in compliance with the requirements of the applicable law.

15. Confidential Nature of Documents

- 15.1. All maps, drawings, photographs, mosaics, plans, reports, recommendations, estimates, documents and all other data compiled by or received by the bidding agency under this assignment shall be the property of PHED, shall be treated as confidential and shall be delivered only to the PHED authorized officials on completion of work under this assignment.
- 15.2. The bidding agency may not communicate any time to any other person, Government or authority external to PHED, any information known to it by reason of its association with PHED which has not been made public except with the authorization of the PHED; nor shall the bidding agency at any time use such information to private advantage. These obligations do not lapse upon termination of this assignment with PHED .

16. Force Majeure; Other Changes in Conditions

- 16.1 In the event of and as soon as possible after the occurrence of any cause constituting force majeure, the bidding agency shall give notice and full particulars in writing to PHED of such occurrence "change if the bidding agency is thereby rendered unable, wholly or in part, to perform its obligations and meet its responsibilities under this assignment. The Bidding agency shall also notify PHED of any other changes in conditions or the occurrence of any event which interferes or threatens to interfere with its performance of the Assignment. On receipt of the notice required under this Article, PHED shall take such action as, in its sole discretion; it considers being appropriate or necessary in the circumstances, including the granting to the bidding agency of a reasonable extension of time in which to perform its obligations under the Assignment. However, in any case the extension shall not be granted more than 90 days (60 days in general and additional 30 days in special condition). If the agency could not meet its obligations in given extended period the PHED will charge the penalty. The penalty would be 0.01% of total cost of the assignment per day.
- 16.2 If the bidding agency is rendered permanently unable, wholly, or in part, by reason of force majeure to perform its obligations and meet its responsibilities under this assignment PHED shall have the right to suspend or terminate this assignment on the same terms and conditions as are provided for in Article 17, Termination", the period of notice shall be thirty (30) days.
- 16.3 Force majeure as used in this Article means acts of God, war (whether declared or not), invasion, revolution, insurrection or other acts of a similar nature or force.

17. Termination

- 17.1. If the bidding agency fails to deliver any or all of the deliverables within the time period(s) specified in the assignment, or fails to perform any of the terms, conditions, or obligations of the assignment, or should the bidding agency be adjudged bankrupt, or be liquidated or become insolvent, or should the bidding agency make an assignment for the benefit of its creditors, or should a receiver be appointed on account of the insolvency of the bidding agency, PHED may, without prejudice to any other right or remedy it may have under the terms of these conditions, terminate the Assignment, forthwith, in whole or in part, upon thirty (30) days' notice to the bidding agency.
- 17.2. PHED reserves the right to terminate without cause this assignment at any time upon thirty (30) days prior written notice to the bidding agency, in which case PHED shall reimburse the bidding agency for all reasonable costs incurred by the bidding agency prior to receipt of the notice of termination.
- 17.3. In the event of any termination no payment shall be due from PHED to the bidding agency except for work and services satisfactorily performed in conformity with the express terms of this assignment.
- 17.4. Upon the giving of such notice, the bidding agency shall have no claim for any further payment, but shall remain liable to PHED for reasonable loss or damage, which may be suffered by PHED for reason of the default. The bidding agency shall not be liable for any loss or damage if the failure to perform the assignment arises out of force majeure.
- 17.5. Upon termination of the assignment, PHED may require the bidding agency to deliver any finished work which has not been delivered and accepted, prior to such termination and any materials or work-in-process related specifically to this assignment. Subject to the deduction of any claim PHED may have arising out of this assignment or termination, PHED will pay the value of all such finished work delivered and accepted by PHED. The initiation of arbitral proceedings in accordance with Article 24 "Settlement of Disputes" below shall not be deemed a termination of this Assignment.

18. Sub-Contracting

In the event the bidding agency requires the services of associate NGOs, the Bidding agency shall obtain the prior written approval and clearance of PHED for all associate NGOs. The approval of PHED of an NGO shall not relieve the bidding agency of any of its obligations under this assignment. The terms of any sub-assignment shall be subject to and in conformity with the provisions of this assignment.

19. Assignments and Insolvency

The bidding agency shall not, except after obtaining the written consent of PHED, assign, transfer, pledge or make other dispositions of the assignment, or any part thereof, of the bidding agency's rights or obligations under the assignment.
